

### **Additional Material Request**

The following questions were requested by the Panel to SaskPower on April 27:

1. Reference Q4 – What were the actual emissions in 2021?

SaskPower expects to have a draft copy of our 2021 emission results from our third-party verifier in the next few weeks.

2. Reference Q11 – Were the export price increases related to the Alberta and US markets?

The export price increases were only due to the Alberta market.

3. Reference Q22 – Please provide a new table in part (a) that includes current rates.

The new table is attached and can be added to the Rate Review Panel website.
